iXerv Americas Announces Strategic Partnership Alliance with Digibee

iXerv will be adding Digibee's Hybrid Integration Platform (HIP) disruptive business model to its solution portfolio to manage data flows between multiple technology endpoints.

Puerto Rico (July 23, 2020) – iXerv Americas, a leading provider of consulting and strategic solutions for SAP SuccessFactors Human Experience Management (HXM) solutions across the Americas and Caribbean, announced today that it has entered into a strategic partnership with Digibee, a provider that simplifies digital integrations with its Hybrid Integration Platform (HIP).

Headquartered in São Paulo, Brazil, Digibee has developed a unique approach to tackle the integration problem with an end-to-end platform – supported by a disciplined integration model – that integrates systems and services, and connects businesses with a modern, digital native, and simple approach.

iXerv will be adding Digibee HIP and their disruptive business model to their portfolio of digital business solutions. This will provide integrations just as your organization needs them: simple, organized, and effective.

“As one of our main focuses, we are always looking for our customers and presenting new technologies and solutions in order to streamline HXM integrations activities. Digibee’s Hybrid Integration Platform will help to solve one of the biggest pains of our clients, Integrations. Sometimes SAP’s on-premise HCM and SAP SuccessFactors clients have a complex integration landscape, and Digibee can address this complexity using their no coding integration platform,” said Bruno Silva, CEO iXerv Americas.

“We are excited with the iXerv Americas partnership. We share the same principles and ethics that enables our clients to take advantage of the most modern digital solutions in a simple environment. Our reliable, high performance and no code integration platform provides high scalable integration, making it simple to perform integration; one of the most challenging activities during projects. This partnership will work focusing every single day on generating impact and excellence when serving customers,” said Marcelo Souccar, Digibee’s COO for USA and Latin America.
